Paja variant apart is its unique warm yellow base enriched with toasted, flamed undertones—evoking a sum-kissed, weathered look that ages gracefully. It's a perfect choice for homes that aim to reflect the old-world charm of **Spanish Colonial** architecture while embracing modern performance.

Ideal for both restorative projects and new builds, this tile is frequently used in coastal villas, resorts, and culturally themed properties. Exclusively available through STIPL Roofz, and imported from La Escandella, it combines design authenticity with high-grade durability
